Dr. Donna F. Smith

SERVICES & FEES – PAGE 3 (Click blue links for more info)

Acute Symptoms (Flu? 1st Aide? Fever? Tooth/Earaches?) Call Dr. Smith for immediate assistance and fast results whenever you are suffering

BIOCHEMICAL TESTING (ADDITIONAL BLOOD & URINE TESTS)

BIOCHEMICAL PROFILES [Number of Tests in Each Profile]	CODE	ANALYSIS FEE	DESCRIPTION OR ADDITIONAL INFORMATION	TOTAL
Tissue Mineral (Hair) - [71]	TMA	\$250-\$350*	Tests for Essential Minerals & Toxic Metals	
Blood Chemistry – [44]	NBCA-44	\$450	NBCA-44 = CMP-22 + CBC-DP + Lipids + THY-4	
Compr Metabolic Panel [14]	CMP-14	\$180	Glucose, Kidneys, Fluids, Electrolytes, Ca, Liver Tests	
CBC + Diff +Plt (Platelets) [12]	CBC-DP	\$180	Anemia, germs, white & red blood cells tested	
Lipid Profile - [6]	LIPIDS	\$180	Chol. Trig, LDL, HDL, with Chol/HDL & HDL/LDL Ratios	
Thyroid Blood Tests- [4]	THY-4	\$190	TSH, T3, T4, FTI(T7) – MDs test only TSH	
Cardio Plus Profile [27]	Car-27	\$190	Glucose, Lipids, Electrolytes, Kidneys, Liver and Mineral/Bone (Fe, Ca, P)	
Cardio Plus + CRP +HS [29]	Car-29	\$300	CardioPlus, C-Reactive Protein & Homocysteine	
C-Reactive Protein [1]	CRP	\$200	Assess stroke, vascular, heart attack risk, and myocardial infarction risk also indicator of inflammation in the body.	
CRP + Homocysteine [2]	CRP-HS	\$250	Both assess stroke & heart attack risk with CRP also assessing vascular, myocardial infarction risk & HC assessing coronary artery disease risk	
Homocysteine [1]	HS	\$220	Assess stroke, heart attack & Coronary artery disease risk	
Prostate Specific Antigen [1]	PSA	\$190	Prostate gland health risk assessment	
Hepatitis A [1]	H-A	\$200	Acute Hepatitis A. IgM antibody develops within a week of symptom onset, peaks in three months, and is usually gone after six months.	
Hepatitis B [2-3]	H-B	\$295	HB varies from acute to chronic infection; possible carrier ID to cleared infection; liver inflammation, potential disease risks.	
Hepatitis C [1]	H-C	\$190	Hepatitis C is a viral infection that causes the liver to become inflamed	
Hepatitis A, B [2] & C [5]	H-3	\$390	See Hepatitis A, B, C above.	
Hemoglobin A1C [1]	A1C	\$190	Monitors Ave amount of Glucose in blood over past few months.	
Vitamin D - 25 Hydroxy [1]	D-25	\$270	TMA, Liver & Lipid Blood Profiles with Vitamin D's (25 & 1, 25) required for comprehensive Vitamin D Analysis	
Vitamin D -1,25 Dihydroxy [1]	D-1,25	\$200		
Vitamin D – (25 + 1,25) [2]	D-2	\$320		
Urinalysis, Complete [13]	Ur-C	\$190	Color, appearance, specific gravity, pH, protein, glucose, blood, ketones, leukocyte esterase, nitrite, bilirubin, urobilinogen, and microscopic examination of urine sediment. incl. HAC	
Urinalysis – 100 Strips [6]	Ur-100s	\$150.	Tests Glucose, Protein, Nitrite, pH, Blood, Leukocytes, incl. HAC	
Urinalysis – 6 Strips [6]	Ur-6s	\$105	Tests Glucose, Protein, Nitrite, pH, Blood, Leukocytes, incl. HAC	
Dietary Analysis (\$75 for one; \$125 for two & \$150 for all three). With these three, you never need another diet.)	DA	\$150.00 (3) \$125.00 (2) \$75.00 (1)	Three "Food Chemistry" Designed Dietary Plans – 1) Dietary Plan Based on your Evaluation or Biochemical Test Results, 2) Detoxification Diet, 3) Endocrine System Dietary Plan (Male/Fe)	

OUR ANALYSIS FEE INCLUDES: (You may submit our invoices to file your own claims for insurance reimbursement.)

1. A Free "Health Appraisal Comprehensive (HAC) Report" (Valued at \$150) (Information on this is at the top of this page under "Clinical Nutrition (CN) Evaluations."
2. Lab Kits for saliva, hair, urine & stool (USPS mailed to your home) and/or emailing Lab Requisition for blood drawn at a local Laboratory, according to tests ordered.
3. Includes Laboratory's fee for hair and blood tests only. (Note: Refer to "Lab Fee columns above for the amount you will include in your Lab Kit when ordering urine, saliva and/or stool tests.)
4. Clinical Nutrition Analysis of Laboratory Reports on each test to identify nutrient deficiencies, biochemical imbalances & dysfunctions in organs, glands and body systems.
5. Design of Therapeutic Supplement Program of Care (POC) based on Clinical Nutrition Analysis "test findings" (i.e., abnormal clinical nutrition values outside homeostasis.)
6. 15-minute Consultation to discuss test findings not included in above tests, except TMA and NBCA-44. (Educational Sessions included in first two Consultations)

*TMA (Hair) Analysis Fee is \$250 when TMA is ordered with one or more other biochemical test. Ex: Hair with Blood or Hair with blood & saliva.

MONTHLY SUPPLEMENT FINANCIAL PLAN (CHOOSE ONE)

Choose for Pace and/or your Financial Budget. Shipping Fee not included in Plan selected. [] = Average Number of Priorities Supported By Plan. No, therapeutic supplements do not cost more.

Rabbit (\$350) – [5-6] Fast Pace Healing	Squirrel (\$250) – [3-4] Moderate Pace Healing	Turtle (\$150) - [1-2] Slower, yet Steady Pace Healing
Horse (No Maximum Financial Limit) – [All Priorities] Supplement Program is designed for Time-Sensitive, Critical Care, or Anyone Wanting Fastest Healing Program Possible)		None of these Financial Plans work for you? Ask about the Snail Plan .
		Read "3 Ways Supplements Are Manufactured Today" on "Library of Articles" pop-out webpage.

CONSULTATION FEES ♦ TELEPHONE (TC) AND EMAIL (EC)

\$45 = 15-Minutes (Min.) or Less	\$75 for 30 Min. or Less; then \$2 per min. over 30 min.	Administrative Consultations Free
30-Minute Monthly Progress Reporting Telephone Consultation Required for Clients on Therapeutic Supplements.
